

Sewer Rates
User Charge System
Effective 4/2009

Sewer charges are based on water consumption with rates charged for each 1,000 gallons. The following is the sewer service charge schedule effective April 1, 2006:

Customer Charge	\$18.00 / Month
Volume Charge	\$1.25 per thousand gallons of water usage

For those users of the municipal wastewater system contributing wastewater, the strength of which is greater than the normal domestic sewage, a daily surcharge will be levied and collected in addition to the regular charge. This surcharge is to offset higher-than normal operation, maintenance, and replacement costs associated with the higher-than-normal sewage strength.

The following surcharge is effective April 1, 2006:

Excess BOD surcharge of \$0.25 per pound of BOD in excess of 3.33 lbs. per 1000 gallons
Excess S.S. surcharge of \$0.23 per pound of BOD in excess of 3.33 lbs. per 1000 gallons

Customers with a Sewer connection only, fee will be \$25.50 per month based on an usage of 6,000 gallons.

Sewer Tap fee:	Up to 6" - \$100.00
----------------	---------------------

Plumbing inspection fee:

Residential	\$50.00
Commercial	\$75.00
Commercial & Industrial	

Fee will be determined by time spent for inspections.
